

FCP Employment Equity Quick Start Guide

Purpose

Employment and Social Development Canada's (ESDC) Federal Contractors Program (FCP) requires provincially regulated employers with 100 or more employees bidding on federal contracts of \$1M or more seek to achieve and maintain a workforce that is representative of the Canadian workforce, including members of the four designated groups under the Employment Equity Act (women, aboriginal and indigenous peoples, persons with disabilities, members of visible minorities).

Population

Dalhousie full-time and permanent part-time employee headcounts on Dec 1st are compared to the StatsCan Census using voluntary self-identification from the Be Counted Census and personnel records. Calculations are completed using the National Occupational Classification (NOC) codes assigned to each position by Human Resources. According to the ESDC method, analysis is completed at the NOC level and then summarized by Employment Equity Occupational Groups (EEOG).

Geographic Comparisons

- EEOG 1, 2, 3 are compared nationally
- EEOG 4, 5, 6, 9 are compared provincially
- EEOG 7, 8, 10, 11, 12, 13, 14 are compared regionally

ESDC 3-Filter Significance Test

1. Gaps of -3 or more may be significant and must be recorded, then apply 2.
2. Gaps of -3 or more with utilization rates (UTR) of 80% or less are significant
3. If gaps between -1 and -3 exist for a designated group in 3 or more EEOGs (columns) and/or in all designated groups within an EEOG (rows) the gaps are significant

Why Higher Levels of PD Availability in 2016? (2)

Increase in self-reporting

- Prevalence tends to increase with age
- Greater recognition of all disability types
- Reduced stigma attached to disabilities
- Increased attention to mental health and wellness

2016 Census filter questions greatly improved coverage, especially of invisible disabilities

2017 Canadian Survey on Disability (CSD)

- Revised and expanded
- Improved collection methods, including online survey
- Respondents tended to divulge more information online than over the telephone or through in-person interviews with paper questionnaires
- Voluntary in 2011 versus mandatory 2016 long-form questionnaire

ESDC Guidelines <https://www.canada.ca/en/employment-social-development/programs/employment-equity/federal-contractor-program.html#s1>

- Dalhousie has collected employment equity information since 1989, disaggregated data since 2000, and the Be Counted census was launched in 2015
- Self-identified fields are integrated across personnel, admissions, and Be Counted Census records using the individual's most recent response per year
- Percent representation is calculated using total returned, except females which uses total population because gender self-ID is close to 100%
- Therefore, gender from personnel and admission records is not included in return rate, resulting in female counts that are sometimes higher than return rate
- Percent representation describes the minimum proportion of the total population and equity-seeking groups are not mutually exclusive
- Return rate is any census or survey activity, including declined, response rate is at least one self-id field complete Y/N/P, FCP guidelines recommend both should be 80% or more. Census Activity is recorded once per person per year

Racialized Persons: Racially visible person, racialized person, other visible minority, historically/indigenous Black Nova Scotian (AFNS), African (Black) heritage, Aboriginal/Indigenous person from outside of North America, East Asian (eg. Chinese, Taiwanese, Japanese, Korean), South Asian (Bangladeshi, Pakistani, Indian, Sri Lankan, Punjabi), South East Asian (eg. Vietnamese, Thai, Cambodian, Malaysian, Filipino/a), West Asian or Arab (eg. Iranian, Afghani, Lebanese, Egyptian, Iraqi, Armenian, Israeli), Latin, South or Central American. Black/African and Historically/indigenous Black Nova Scotian counts are subsets of this figure.

Indigenous & Aboriginal Peoples: Aboriginal/Indigenous person from North America, First Nations, Mi'kmaq (MK), Maliseet, Inuit, Metis, and not listed above. Mi'kmaq (MK) counts are a subset of this figure.

Persons with a Disability: a chronic, long-term or recurring physical, sensory, mental, learning or intellectual impairment, that, in interaction with a barrier, hinders that person's full and effective participation in society.

Sexual Orientation & Gender Identity: transgender, gender non-conforming, two spirit, queer, lesbian, bisexual, gay, asexual, not listed above. Statistics Canada data from the 2014 Canadian Community Health Survey show that 3.0% of Canadians identify as lesbian, gay, or bisexual. https://www.statcan.gc.ca/eng/dai/smr08/2015/smr08_203_2015#a3
